Re: Gale School

September 21, 2006

Dear Ms. Marden:

Thank you for your submission to our Seven to Save program. As you know, we hope that the program will attract attention and resources to threatened places and highlight preservation issues across the state. We were very impressed by the number and variety of the submissions.

The public announcement of the list will be on Tuesday, October 17 at Webster Farm in Franklin. Tours of this property (listed on America's 11 Most Endangered by the National Trust for Historic Preservation) begin at 4PM. The program that includes the announcement and our annual meeting begins at 5PM. Listees will be notified in advance.

We will be in touch if we have any questions as we advance our process. In the meantime, we advise all nominators to consider how the nomination itself can be of help to your efforts to save your important property.

Sincerely,

Beverly Thomas
Beverly Thomas
Program Associate

P.S. Please note that if your property is selected, we may ask for additional images and a review of a project summary the first week of October.
